## Lita Ford, Holy Man

Lead me into temptation Save me with your healing hands Show me the fires of creation Baby be my holy man

Flames in the Garden of Eden Heaven in pieces at my feet I faced the raging ruin Of a million sleepless nights I need to rest my weary head On your resurrection bed

Storms across the horizon
Whirlwind tuggin' at my sleeve
Just when my heart was turning
To an icy shade of blue
You came into the night
Held me so close
How the hell ya found me
God only knows

Lead me into temptation Save me with your healing hands Show me the fires of creation Baby be my holy man

Lies in the Valley of Evil Like shadows fallin' 'cross my eyes When there's no santuary You came and turned the storms away You made the darkest night in my life Into Judgement Day

Lead me into temptation Save me with your healing hands Show me the fires of creation Baby be my holy man

I see forever in your eyes For your love I would make any sacrifice, yeah

Lead me into temptation Save me with your healing hands Show me the fires of creation Baby be my holy man

Lead me into temptation Save me with your healing hands Show me the fires of creation Baby be my holy man

Lead me into temptation Save me with your healing hands Show me the fires of creation Baby be my holy man

Lead me into temptation Save me with your healing hands Show me the fires of creation Baby be my holy man
