

# Little Mix, Secret Love Song (feat. Jason Derulo)

Jesy:

When you hold me in the street  
And you kiss me on the dance floor

Jade:

I wish that it could be like that  
Why can't it be like that? Cause I'm yours

Jade:

We keep behind closed doors  
Every time I see you, I die a little more  
Stolen moments that we steal as the curtain falls  
It'll never be enough

Jesy:

It's obvious you're meant for me  
Every piece of you, it just fits perfectly  
Every second, every thought, I'm in so deep  
But I'll never show it on my face  
But we know this, we got a love that is hopeless

Perrie:

Why can't you hold me in the street?  
Why can't I kiss you on the dance floor?  
I wish that it could be like that  
Why can't we be like that? Cause I'm yours

Jason Derulo:

When you're with him, do you call his name  
Like you do when you're with me? Does it feel the same?  
Would you leave if I was ready to settle down?  
Or would you play it safe and stay?  
Girl you know this, we got a love that is hopeless

Perrie&Jason Derulo:

Why can't you hold me in the street?  
Why can't I kiss you on the dance floor?  
I wish that it could be like that  
Why can't we be like that? Cause I'm yours

Jason Derulo:

And nobody knows I'm in love with someone's baby

Leigh:

I don't wanna hide us away

Jason Derulo:

Tell the world about the love we making

Leigh:

I'm living for that day

Leigh&Jason Derulo:

Someday

Jason Derulo:

Why can't I hold you in the street?  
Why can't I kiss you on the dance floor?

Jesy:

I wish that we could be like that  
Why can't we be like that? Cause I'm yours, I'm yours

Leigh&Jason Derulo:

Why can't you hold me in the street?  
Why can't I kiss you on the dance floor?

Leigh:  
I wish that it could be like that  
Why can't it be like that? Cause I'm yours

Perrie&Jason Derulo:  
Why can't I say that I'm in love?  
I wanna shout it from the rooftops  
I wish that it could be like that  
Why can't we be like that? Cause I'm yours

Jade:  
Why can't we be like that?  
Wish we could be like that
