

Little Mix, The Megamix (feat. Saweetie)

[Perrie & Jade]

We wanna celebrate
Like we in the club every day
Got all my friends here with me
And I don't need ya, I don't need ya
Got this dress up on me
So I don't need your stress up on me
Baby, we're done, c'est la vie
Now I don't need ya, I don't need ya

[Leigh-Anne]

Shoulda left your ass from time ago
Didn't love me then, but now I do
I used to sit at home and cry for you
Diamonds on my neck, I shine for you
Ain't blockin' my blessings anymore
Never be the girl I was before
I'ma let the good things in my life rain down

[Jade & Leigh-Anne]

From the sky, drop like confetti
All eyes on me
So VIP
All of my dreams
From the sky, drop like confetti (Drop it down)
You're missin' me
But I'm finally free
I got what I need
So let it rain down like confetti
