

# Live, Sofia

Diamonds and pearls don't move this girl  
She can be icy cold to the crawl  
One of her lungs breathes in another world  
While the other sticks around to blow you off  
Even when the four winds blow  
She kinda passes by like she don't feel it  
No, momma, she don't feel it  
One of these days I'm gonna dive into her waves  
And bring back the meaning of it all

Sofia, I need ya  
Like a junkie needs a vein  
And I wanna feel ya, Sofia  
Fallin' down on me like rain

They say in ancient times, man, that women ruled the world  
But the goddess was the one who laid it down  
Well, I gots a woman as alive as the day  
Gonna breathe a whisper, knock you right down to the ground  
So go ahead man and say what you came to say  
The black widow's a spider  
The black widow's a spider  
Then go and prepare for your dyin' day  
Won't take one minute till you're curled up dead beside her

Sofia, I need ya  
Like a junkie needs a vein  
And I wanna feel ya, Sofia  
Fallin' down on me like rain

On me like rain  
Fall down  
Fall down  
Fall down

Sofia, I need ya  
Like a junkie needs a vein  
And I wanna feel ya, Sofia  
Fallin' down on me like rain

Sofia, I need ya  
Like a freeloader needs his train  
And I wanna feel ya, Sofia  
Fallin' down on me like rain

Sofia, rain down on me  
And I ain't ever  
I'll never be the same, baby  
I wanna feel ya, Sofia  
Fallin' down on me like rain
