

LIZ PHAIR, Never Said

(yeah)

I never said nothing

I never said nothing

I never said nothing

I never said nothing

I don't know where you heard it

Don't know who's spreadin' it 'round

All I know is I'm clean as a whistle, baby

I didn't utter a sound

I never said nothing

I never said nothing

I never said nothing

I never said nothing

I don't know what they told you

Don't even care what about

All I know is I'm clean as a whistle, baby

I didn't let the cat out

So don't look at me sideways

Don't even look me straight on

And don't look at my hands in my pockets, baby

I ain't done anything wrong

I never said nothing

No, baby, I never said nothing

I never said nothing

I never said nothing

I never said nothing

No, not to anyone

I never said nothing

I never said nothing
