

# Lobo, Cyber Love

(Kent LaVoie)

I've never been where I am now  
I've never felt the same  
Everything has changed  
And I'm spinning round and round and round

She's taking me to a world  
That's beyond my mind  
Another pace and time  
A place I never want to come back from

Beside her  
Inside her  
I'm in Cy-ber Love  
Cyber Love

Cyber love has no end  
It goes on and on  
A never ending song  
A circle going round and round and round
