

Loco Star, TV Head

We've been waiting for your sign
We knocked on your window maybe hundred times
Left a message on a card
Dress up!
Don't mess up!

Come to rescue, catch the rope
We crashed the mansion using rolling stones
Found you welded with the web
Buzzing Corroding

Come on won't you lose you head
Come on won't you cut off your head
Come on won't you lose you head
Your TV head

There's something better
Than living anti social
Now you are nothing
Watching, no touching
Living anti social
Watching, no touching

Come on won't you lose you head
Come on won't you cut off your head
Come on won't you lose you head
Your TV head
