

# Lola Ray, Astronaut

I like your hair a lot.  
It reminds me of an astronaut.  
Take it from me baby,  
what I need you've got.  
I like to ride on bikes and tour the west side,  
but I don't know.

You're on your way to work  
And I'm still taking a nap  
All the way across the United States  
And you still make me laugh

I haven't got a car  
Atleast one that'll take me that far  
Tiny photographs will have to do for now

I like your hair a lot  
It reminds me of an astronaut  
Take it from me baby  
What I need you've got
