

# Lolo Zouai, Crying in the Carwash

Crying in the carwash  
Tryna feel something  
In a city that never rains  
Wishing I could I could take the top off  
Cover up the tears and watch them all go down the drain

Feel like the walls are closing  
Lights are on i'm not home oh  
I don't know where i'm going  
Windows rolled up so no one knows

When it rains it's really pouring  
Need somewhere to go and feel like i do  
Don't invite me i'll be boring  
I'm not in the mood to party

When i'm  
Crying in the carwash  
Tryna feel something  
In a city that never rains  
Wishing I could I could take the top off  
Cover up the tears and watch them all go down the drain

Now i'm crying crying  
Lay my head on the glass  
Yeah i'm crying crying  
No one knows i'm a mess  
Crying in the carwash  
Tryna feel something  
In a city that never rains

So let them fall down  
I'll let them fall down  
I wish they would fall down  
yeah let them fall down

Feel like my throat is closing  
World is ending i been lost but no one noticed (nobody noticed me)  
And all i wanna do is scream  
(ohhh)  
I'd rather be anyone but me

When it rains it's really pouring  
Need somewhere to go and feel like i do  
Don't invite me i'll be boring  
I'm not in the mood to party when i'm

Crying in the carwash  
Tryna feel something  
In a city that never rains  
Wishing I could I could take the top off  
Cover up the tears and watch them all go down the drain

Now i'm crying crying  
Lay my head on the glass  
Yeah i'm crying crying  
No one knows i'm a mess  
Crying in the carwash  
Tryna to feel something  
In a city that never rains

So let them fall down  
I'll let them fall down  
I wish they would fall down

yeah let them fall down
