

London Grammar, America

And i hope that you find it
All that you need
I hope that you stay young
And wild and free
You'll have America

And i hope that you're better
Than all of your friends
I hope that they hold you
Until the end
You can have America

But all of our time chasing America
But she never had a hope for me
All of our time chasing a dream
A dream that meant nothing to me

I see where i found you
Where they all lay
All of the greatest they are here to stay
Here in America
