

# London Grammar, America

And I hope that you find it, all that you need  
I hope that you stay young and wild and free  
You'll have America

And I hope that you're better than all of your friends  
I hope that they hold you until the end  
You can have America

But all of our time chasing America  
But she never had a home for me  
All of our time chasing a dream  
A dream that meant nothing to me

And see where i found you  
Where they all lay  
All of the greates  
They are here to stay  
Here in America

And i hole teht you finding  
All that you are  
I hope that it sets you up high  
In the heart of America

But all of our time chasing America  
But she never had a home for me  
All of our time chasing a dream  
A dream that meant nothing to me

And all the parties they fade  
And yes!, my looks, they'll go away  
I'll just be left here in America  
But she never had a home for me
