

# Longpigs, The Frank Sonata

In this life there is no question of why  
Bloodied but unbowed  
All persevere without doubt  
But without your love I can't suffer the stars in the sky  
I don't know why you haven't tried  
Heed this advice

Love like you've never been burnt  
Work like you don't need the money  
Dance like there's nobody watching  
Kiss like your tongue is on fire  
Suck like you don't need the money  
Sin like there's nobody judging

You can keep your cool  
It's the occupation of fools

You kiss those rosy cheeks  
The shine comes away on your lips  
But with your love I could burn all the bridges in Venice  
Yes I confess it  
Yours is the love that I want to be in  
And these are the words that I'm saying it in

Love like you've never been burnt  
Work like you don't need the money  
Dance like there's nobody watching  
Kiss like your tongue is on fire  
Suck like you don't need the money  
Sin like there's nobody judging

Cos honey if you tried  
I'd come running to you child  
Like Lassie's final mile  
These problems are not mine

Yours is the love that I want to be in  
And these are the words that I'm saying it in  
Love like you've never been burnt
