

# Loraine McFarland, Gone So Leave

## Verse 1

What have you done  
I thought you were the right one for me  
Instead you went  
And you made out with my best friend  
You bet  
I'm mad  
Now your back with your ex-girlfriend  
Screw you  
I'm threw  
With all the shit you put me through  
No more giving second chances  
No more waiting for you  
Your times up  
I've had enough  
It's your loss  
Baby im threw

## Chorus

I am sick  
I'm tired of the games you try to play  
With me  
I'm gone so leave  
Cause I quit  
I'm fed up with all your bullshit  
With me  
I'm gone so leave

Fuck you im threw

## Verse 2

And that goes for your new girlfriend to  
I hope she knows  
Everything I now know about you  
I loved you  
Now hate you  
If you only knew what i've been through  
I told my friends about you  
I cried my tears for you  
I fought for what should have been  
And got nothing in the end

## Coda

One minute you say your all mine and you love me  
The next you leave me all alone  
But when you finally see the best you never had  
I'll say I told you so  
Yeah
