Los Lobos, Emily

(David Hidalgo/Louie Perez)

Emily, take me 'cross the water home Emily, look how much we have grown Emily, I still remember the day Waking up, chasing the shadows away It won't be long 'til I see your face Eyes as bright as the sun It won't be far down this lonesome road 'Til I see you again

Emily, run so fast through the fields Make believe, all our dreams were so real It won't be long 'til I see you smile Turning my night into day It won't be far down this lonely way 'Til I can hold you again

Emily we can hide, hide from them all Emily, they can't catch us They can't catch us now They can't catch us now They can't catch us now
