

Los Lonely Boys, Real Emotions

It doesn't matter how far I go
It doesn't matter how long I stay
It doesn't matter if the nights are long
It doesn't matter the time of day
All I'm saying that my love is true, I'm always here for you
Our love is
Deeper than any ocean
My heart is pounding
with real emotions
Our love is
Sweeter than any potion
My heart is pounding
with real emotions
It doesn't matter if there's a hurricane
It doesn't matter if there's a tidal wave
It doesn't matter if your phones go down
It doesn't matter if I'm away
All I'm saying that my love is true, I'm always here for you
My love is
Deeper than any ocean
My heart is pounding
with real emotions
Our love is
Sweeter than any potion
My heart is pounding
with real emotions
Everything I have I'll give to you
I'll make your dreams and wishes all come true
We'll burn together in the heat of love
Under the stars above
My love is
Deeper than any ocean
My heart is pounding
with real emotions
Our love is
Sweeter than any potion
My heart is pounding
with real emotions
