

# Lost Frequencies, Black & Blue (ft. Mokita)

you always got an explanation  
some hesitation  
i know  
there's no need for all this tension  
you're not addressing  
but I know

you're talking with your body  
but your lips are saying different words  
you speak a different language  
don't you understand how bad it hurts?

so tell me what you want  
tell me what you need  
tell me what you're falling  
when you're looking at me  
tell me what to say  
maybe it's too soon  
I am swimming through the grey  
but I can't find you

now I'm black and blue  
now I'm black and blue

you say that you just don't believe me  
but now you're leaving alone  
baby listen, do you hear me  
when I speak clearly about what I want

you're talking with your body  
but your lips are saying different words  
you speak a different language  
don't you understand how bad it hurts?

so tell me what you want  
tell me what you need  
tell me what you're falling  
when you're looking at me  
tell me what to say  
maybe it's too soon  
I am swimming through the grey  
but I can't find you

now I'm black and blue  
now I'm black and blue
