

Lost Frequencies, Rise

Its been a hard year
Feeling the weight now
All of the hurt
All of the dirt
All of the shame now

Nothing but close doors
Not gonna break down
I rise

See doubt is a strong drug
It gets in your bloodstream
You loose your hope
Ypu loose your soul
You the whole thing
I fought my whole lide
To know it won't break me
I rise

If i ha dan answer to all my fears
I'd be doing well
If i had a dolar for evety tear
I'd be rich as hell
Call me crazy
The struggle mede me

Ain't no way
No way i am stopping now
Gonna make my way right throught the clouds
I rise
I rise
Imma grift my teeth and bare the pain
Gonna clib this mountain once again
I rise
I rise
