

Lost Frequencies & Zonderling, Crazy

Oh Lord, hear me turn these words into a song
for them to sing along to when I'm gone
for them to sing along to when I'm gone

oh Lord, let me be the one to set them free
I will give them every part of me
put my heart where everyone can see

they can call my whatever they want
call me crazy
you can call me whatever you want
but that won't change me

I just don't care what the world says
I'm gonna make it
they can call me whatever thy want
so what if I am, crazy

oh Lord this is much harder than I thought
but I will give them everything I've got
one day I am gonna prove them wrong

oh Lord, let me be the one to set them free
I will give them every part of me
put my heart where everyone can see

they can call my whatever they want
call me crazy
you can call me whatever you want
but that won't change me

I just don't care what the world says
I'm gonna make it
they can call me whatever thy want
so what if I am, crazy
