Lost Frequencies & Zonderling, Crazy

Oh Lord, hear me turn these words into a song for them to sing along to when I'm gone for them to sing along to when I'm gone

oh Lord, let me be the one to set them free I will give them every part of me put my heart where everyone can see

they can call my whatever they want call me crazy you can call me whatever you want but that won't change me

I just don't care what the world says I'm gonna make it they can call me whatever thy want so what if I am, crazy

oh Lord this is much harder than I thought but I will give them everything I've got one day I am gonna prove them wrong

oh Lord, let me be the one to set them free I will give them every part of me put my heart where everyone can see

they can call my whatever they want call me crazy you can call me whatever you want but that won't change me

I just don't care what the world says I'm gonna make it they can call me whatever thy want so what if I am, crazy
