

Low Hum, Nebraska

Selfishly

I expected you to never go
Harder now; I've got no control
Nobody
Got the love like you gave to me
Never thought I'd see you leave

It's an emptiness I can't hide
A feeling not to be denied
But I know I know I know I know
We'll be together someday
And I could sense you waited for me
When I pictured you in that dream
That's how I know I know I know I know I know
We'll be together someday

Honestly

Never thought this
would drag me down
Memories
Keep on echoing through my mind
Hope they never go

It's an emptiness I can't hide
A feeling not to be denied
But I know I know I know I know
We'll be together someday
And I could sense you waited for me
When I pictured you in that dream
That's how I know I know I know I know I know
We'll be together someday
