

Lucy Simon, I Have a Song

I have a song,
I think its a song that's about you
I have a song,
I think its a song about somebody who
Can see a cloud go drifting by
and feel the very same as I

And i have a song
I think its a song and it's about you
its about you

I have a dream,
I think it's a dream maybe you have too
I have a dream,
a wonderful dream about somebody who
I think would really like to know,
that part of me im scared to show

Oh, I have a dream,
I think it's a dream maybe you have too
That maybe you have too

I have a hope,
I think its a hope that i share with you
I have a hope, a wonderful hope about somebody who
beleives in love, believes in me, beleives in how good life can be

And, I have a hope,
I think its a hope that i share with you
Oh I have a hope,
I think its a hope that i share with you
Oh i share with you
