

# Luis Fonsi, Turn It Up

I can feel it in the air  
something is calling me out there  
grab my things can't wait no more  
gotta get back on the floor

That's where the music's thumping hard  
where I feel my body start  
to lose control  
where I can let go

C'mon let's turn it up tonight  
just feel the beat  
we're gonna dance until we're moving out of sight  
you and me  
can you feel it in the rhythm, the flow  
whether it's fast or it's slow  
we'll get it right  
c'mon let's turn it up  
turn it up tonight

Never had that much to say  
the music carries me away  
my body language does it all  
keeps me living off the wall

don't need to show you how it goes  
it's better if you do your own  
thing cause you're the only one who knows

Never been lazy  
about rhythm no baby  
got the music just blazin'  
that's right

Cause when I start flowing  
who knows where I'm going  
but everything is gonna be fine  
so (let's) turn it up tonight
