

# Luke Benward, Shine

When everything's getting dark around you  
So many clouds you just can't see thru  
Don't runaway, sun can make the sky break  
You're made for more you got what it takes to  
Shine  
With everything inside you  
Shine  
So bright  
Come on you know you want to  
Cuz your life is your light  
You gotta let it shine  
No need to worry what they say about you  
You're living stronger cuz you know what's true  
So what ya say radiate don't back down  
Be who you are the time is now to  
Shine  
With everything inside you  
Shine  
So bright  
Come on you know you want to  
Cuz your life is your light  
You gotta let it shine  
I shine, You shine, We shine  
Shine  
I shine, You shine, We shine  
Shine  
Shine  
with everything inside you  
Shine  
So bright  
Come one you know you want to  
Cuz your life is your light  
You gotta let it shine  
Shine  
with everything inside you  
Shine  
So bright  
Come one you know you want to  
Cuz your life is your light  
You gotta let it shine  
Shine, Shine, Shine, Shine  
I shine, You shine, We shine, Shine  
I shine, You shine, We shine, Shine
