

Lulu James, Closer

Don't let them get in the way from making our own mistakes
If that's what they will see, just come hold my hand
and come close up, hold me
Let's go, disturbing us now
Come closer and hold me,
that's no disturbing us now

Make me one whole love you,
Make me one whole love you
I wanna be a part of you

Stop that from listening
Let's go and do our thing
Keep continue in,
Follow the boy last breach
And come closer, tight me,
that's no a ma now,
Come closer and tight me,
That's no one from us now

Make me one whole love you
Make me one whole love you
I wanna be a part of you
Make me one whole love you
The come closer
Make me one whole love you

Don't you ever let me go
I can't see straight through your soul,
Now I lose control
And I believe that you're the only one

Make me one whole love you
Make me one whole love you
I love you
Make me one whole love you
I want you
Make me one whole love you
Closer baby
I'm closer, time will heal
Make me one whole love you
Keep holding me closer
Make me one whole love you
I wanna be a part of you

I wanna be a part of you
I wanna be a part of you
I wanna be a part of you
I wanna be a part of you
