

Luna, Blind

Look closely through my eyes
No senses inside
Bring it on the sound
Shadow left behind
Don't you know that bat?

Who Wander by the night
Twilight keep them up
Held the prison tight
Under .. you hunt
Do you look alive?

Light
Dim the light
I don't wanna see no colors
Stay blind
Light
Dim the light
All the blackses are in flames
Sorrow
There' resemble us
Just us
Light
Dim the light
Now my heart is beating harder then the fright
Light
Dim the light
all my cloudy faces
disaper now
