

Lunik, Rumour

It's only a deception that man can fly
traveling round the world - flying to the universe
are all bad lies
The only truth is hidden

It's only a contention that sky is wide
Earth's said to be a ball - revolved by heavy tin-machines
in dizzy heights
Dare I know these secrets?

It's only a rumor
No sun does exist
It's maybe a rumor that the earth turns

It's only a contention that man flew to the moon
counterfeit in studios - by pasteboard
population has been fooled
This knowledge is forbidden
