

# Lupe Fiasco, Old School Love (ft. Ed Sheeran)

[Ed Sheeran:]

Give me that old school love right now  
You know that only you and me alone...

[Ed Sheeran:]

As long as I'm here  
As long as you love me  
Give me that old school love right now

Give me that late 80s early 90s old school  
Feeling like my second album, so cool  
Chiraq summer looking so cruel  
Look shorty in the eye, told me it was no rules  
Went to speak but was like never mind  
Let my mind just sneak back to a better time  
When I was his age and if he's ever mine  
Thinking he would only think back to this and never find  
Better times to think back to when it comes  
And he's older in the presence of somebody young  
Telling him the same things that he told me  
And he reacts the same way as that OG  
But it's old school, it's like '03  
And this old man is my old me  
Takes a long time to happen so fast  
To realize that your future is somebody else's past  
Wassup...

[Ed Sheeran:]

As long as you love me

Analog black vinyl spinning sounding so good  
Top down, can't be a classic if it's no wood  
If you don't know what, then you new school  
Floor model is the foundation for your YouTubes  
Model flows off of Fat Boys and Juice Crews  
Melle Mel's, Ice-T's, and the 2 Cools  
Add a Moe Dee and a Double L  
Had to walk cause it's hard to run in those unbuckled shells  
One microphone and a couple 12s  
Six drum sounds and a couple bells  
Is all you had to make a couple rails  
And that's a track, and if you want a  
You have to make it like that  
Now what's one turtle to a couple snails?  
Takes a long time to happen so fast  
And realize your future is somebody else's past  
Wassup...

Chiraq summer looking so cruel  
How can I reel-to-reel when there's Pro Tool?  
I can't dig it at all because there's no tube  
Fire when you speak but ain't no warmth in your vocals  
Might have been a better rhyme then just never mind  
If it's better with time then think in line

That you're going to be your nicest 'round your midlife crisis  
If you're life like Christ live your midlife like it's... Christ-like  
Nigga I ain't psychic  
I know it's all a cycle and everybody bike it  
And France is enormous you're Lance with endorsements  
But you might need a hand to enhance your performance  
Consider this a kilogram of encouragement  
Teach you how to sneak it past the enforcement  
And when you get it through in a manner so cool  
Remember to give a little nod to the old school  
Wassup...

[Ed Sheeran:]

Give me your old school love right now  
I'm leaving it all up to you darling, giving you everything you want  
And give me that old school love right now  
You know that only you and me alone...

[Ed Sheeran:]
