

Lykke Li, I'm Good, I'm Gone

Working in the corner
Peeking over shoulders
Waiting for my time to come

Steppin', stormin'
I'm all gone
Give me the tone and I'm all gone
Yeah, I'm walkin' by the line
Not here, but in my mind

I'm workin', I sweat, but it's all good
I'm breakin' my back
But it's all good
'cause I know I'll get it back
Yeah, I know your hands will clap

Yeah, I'm workin'
Yeah, I'm workin'
To make butter for my piece of bun

And if you say I'm not OK
We must go
If you say there ain't no way that I could know
If you say I aim too high from down below
Well, say it now 'cause when I'm gone...
You'll be callin' but I won't be at the phone

And you're hanging around 'til it's all done
You can't keep me back once I've had some
Wasting time to get it right
And you will see what I'm about

Yeah, I'm workin', I sweat, but it's all good
I'm breakin' my back
But it's all good
'cause I know I'll get it back
Yeah, I know your hands will clap

And if you say I'm not OK
We must go
If you say there ain't no way that I could know
If you say I aim too high from down below
Well, say it now 'cause when I'm gone...
You'll be callin' but I won't be at the phone

Working in the corner
Peeking over shoulders
Waiting for my time to come

And if you say I'm not OK
We must go
If you say there ain't no way that I could know
If you say I aim too high from down below
Well, say it now 'cause when I'm gone...
You'll be callin' but I won't be at the phone (x2)
