

# Lykke Li, Just Like A Dream

I'm letting you go  
I'm setting you free  
I no longer love  
Head over heels

Morning will come  
My heart will break  
So before you replace me  
Lie with me one last time

Just like a dream  
Oh come, come back to me  
And I'll still believe  
If you stay baby, stay with me  
Darling I beg, come back to me  
Just like a dream

Before you forget  
Was I ever real  
Before you forgive me darling  
For love I can't feel  
Before I replace you  
Lie with me one last time

Just like a dream  
Oh come, come back to me  
And I'll still believe  
If you stay baby, stay with me  
Darling I beg, come back to me  
Just like a dream

You're making my heart bleed honey  
Don't ever forget me honey

Just like a dream  
Oh come, come back to me  
And I'll still believe  
If you stay baby, stay with me  
Darling I beg, come back to me  
Just like a dream

Just like a dream  
Oh come, come back to me  
And I'll still believe  
If you stay baby, stay with me  
Darling I beg, come back to me  
Just like a dream
