

Lykke Li, OVER

I'm here to get over
I'm getting over you, uh-huh
Don't wanna be sober, now that it's over
It's over

I'm four minutes closer
I'm gonna let my feelings drown
Don't wanna be sober, now that it's over
It's over

I don't need you
I don't want love
Give me one shot, oh now
And all night

I'm here to get over
All of the nights you let me down
Don't wanna be sober, now that it's over
It's over

I don't need you
I don't want love
Give me one shot, oh now
And all night

I don't need you
I don't want love
Give me one shot, oh now
And all night

Still in your arms, yeah, I'm still in your arms
I'm not moving on, no I'm still in your arms
I don't want it to fade
I don't want it to fade
Still in your arms, yeah, I'm still in your arms

I don't need you
I don't want love
Give me one shot, oh now
And all night

I don't need you
I don't want love
Give me one shot, oh now
And all night

Give me one shot, oh now
And all night

Give me one shot, oh now
And all night
