Lynn Anderson, Don't Wish Me Merry Christmas

Children are singing just outside my door Snowflakes are falling it's Christmas once more Everyone's happy but I feel so blue it's just not like Christmas since I don't have you So don't wish me merry Christmas this year for how could that ever be Tell me how could Christmas be merry and bright if you're not here with me

We used to add presents and hang mistletoe Then sit by the fireside and turn the light low But things are so different since you went away And now to me Christmas is just another day So don't wish me merry Christmas...
