

Mad Sin, Communication Breakdown

Communication breakdown
See us standing on the other side
Communication breakdown
Our heads up high - united for the fight

Well, i don't want lobotomy, don't need no therapy -
You won't take it, can't take it away

No, you won't change my point of view 'cause I can See through you -
You can't hide it, can't hide it away

This is malfunction to the society,
But I don't like you and I know you hate me

Communication breakdown
See us standing on the other side
Communication breakdown
Our heads up high - united for the fight

Well through the streets I hear the call our rise Is gonna be your fall -
We stand as one back against the wall

Let's bop till you fuckin' drop, your reign has got to stop -
And we 'll blow you, blow you away

This is destruction to the society
Cause i don't like you and i know you hate me

Communication breakdown
See us standing on the other side
Communication breakdown
Our heads up high - united for the fight

Working class sickos, psychobilly banditos,
Punkrockin' chickas let's pull the triggers

Communication breakdown
See us standing on the other side
Communication breakdown
Our heads up high - united for the fight
