

Madball, We Should Care

What is this world coming to
There's no faith, there's no hope
People live in fear, and kill and
ask why die? What is this world
coming to I can't believe what you're
trying to do you're killing people all time
and not paying for your crime, what is
this world coming to I can't believe
what you're trying to do you're killing people all
the time and not paying for your crime
look at me and look at you you think we're
all same but don't you know we're different
in your own way Do you got that fucked up
attitude? You say you don't care but
we all need unity for all of us to share
no faith, no hope, live, kill
why die! Why don't you go fuck yourself
and let me live my life.
Blah!!!
