

# Madonna, Miles Away

I just woke up from a fuzzy dream  
You never would believe the things that I have seen  
I looked in the mirror and I saw your face  
You looked right through me, you were miles away

All my dreams, they fade away  
I'll never be the same  
If you could see me the way you see yourself  
I can pretend to be someone else

You'll always love me more miles away  
I hear it in your voice when you're miles away  
You're not afraid to tell me miles away  
I guess we're at our best, we were miles away

So far away, so far away, so far away, so far away  
So far away, so far away, so far away, so far away

When no one's around and I have you here  
I begin to see the picture, it becomes so clear  
You'll always have the biggest heart, when we're 6,000 miles apart

Too much of no sound, uncomfortable silence can be so loud  
Those three words are never enough, when it's long distance love

You'll always love me more miles away  
I hear it in your voice when you're miles away  
You're not afraid to tell me miles away  
I guess we're at our best, we were miles away

So far away, so far away, so far away, so far away  
So far away, so far away, so far away, so far away

I'm alright, don't be sorry but it's true  
When I'm gone, you'll realize  
That I'm the best thing to happen to you

You'll always love me more miles away  
I hear it in your voice when you're miles away  
You're not afraid to tell me miles away  
I guess we're at our best, we were miles away

You'll always love me more miles away  
I hear it in your voice when you're miles away  
You're not afraid to tell me miles away  
I guess we're at our best, we were miles away

So far away, so far away, so far away, so far away  
So far away, so far away, so far away, so far away  
So far away, so far away, so far away, so far away  
So far away, so far away, so far away, so far away  
So far away, so far away, so far away, so far away...
