## Madonna, Push

You push me To go the extra mile You push me When it's difficult to smile You push me A better version of myself You push me Only you and no one else

You push me To see the other point of view You push me When there's nothing else to do You push me When I think I know it all You push me When I stumble and I fall

Keep on pushing like nobody

[Chorus] Every race I win Every mood I'm in Everthing I do I owe it all to you Every move I make Every step I take Everything I do It's all because you push me

You push me When I don't appreciate You push me Not to lie and not to hate You push me When I want it all to end You push me When I really need a friend

You push me All I wanna do is cry You push me When it's hard for me to try You push me When I do it for myself You push me Only you and no one else

Keep on pushing like nobody

[Chorus]

You push me

Keep on pushing like nobody

## [Chorus]

To go the extra mile When it's difficult to smile A better version of myself Only you and only you and only you To see the other point of view When there's nothing else to do When I think I know it all Only you and only you and only you
