

# Magdalena Tul, I'll never forget

I know,  
Soon my heart will be broken as yours  
It is all the justice in our world  
All I did  
Everything will return tomorrow to me

I know,  
That someday you'll forgive me all  
Life's changing time will heal the wounds  
We both know,  
It's time to say goodbye

But a piece of my soul  
Tells me that we should hold together  
Though it's the end of our love  
United we'll stay forever

I'll never forget  
All those days I've spent with you  
Now, I realize that a half of me is still you  
No, I won't regret!  
The tears that I've cried for you  
'Cuz all of emotions swelling deep inside my heart  
I learnt from you

I know,  
Now I see differently my life  
With a man that I love by my side  
Try to build on this feeling  
Not destroy what we got  
Sometimes,  
I think that I would forget  
Clear my mind of the day we met  
Easy way,  
But I don't want to run away

But every piece of my soul tells me  
We should hold together  
United we'll stay forever
