

# Magic Dirt, Last Night

Good luck tryin' to forget about  
Good luck tryin' not to let it out  
Good luck tryin' not to block it out  
Good luck tryin' not to lie about  
Last night, last night, last night

Oh come on,  
Just one more hour in the morning  
Come back baby  
Even if we only  
I'm starry-eyed while you're comforting  
You know baby we don't have to pretend about  
Last night, last night, last night, last night.  
Oh,  
Last night, last night, last night,  
Last night, last night, last night,  
Last night

You said it wasn't going to happen at all last night  
You said you went and opened every single tour ride  
You said it wasn't going to happen at all last night  
You said it wasn't going to happen at all last night
