

Magic Dirt, Last Night

Good luck tryin' to forget about
Good luck tryin' not to let it out
Good luck tryin' not to block it out
Good luck tryin' not to lie about
Last night, last night, last night

Oh come on,
Just one more hour in the morning
Come back baby
Even if we only
I'm starry-eyed while you're comforting
You know baby we don't have to pretend about
Last night, last night, last night, last night.
Oh,
Last night, last night, last night,
Last night, last night, last night,
Last night

You said it wasn't going to happen at all last night
You said you went and opened every single tour ride
You said it wasn't going to happen at all last night
You said it wasn't going to happen at all last night
