

# Magnum, Dream About You

I never though I'd feel so helpless  
Something's happening to me  
'Cause every night feels like the longest  
And every hour's eternity  
'Cause I can't have you like I wanted to  
I got nothing without you

So now I dream about you  
I got my arms around you  
Dream about you  
Ain't nothing else I can do  
I want to be where you are  
No matter near or how far  
So now I dream about you

I'd never thought I'd feel defenceless  
Nothing mattered much to me  
The sun goes down, I get restless  
All those same old memories  
'Cause I can't have you like I wanted to  
I got nothing without you

So now I dream about you  
I got my arms around you  
Dream about you  
Ain't nothing else I can do  
I want to be where you are  
No matter near or how far

I know your touch  
You're look, you're every word  
Can you hear me, baby?  
I want you back again into my world

So now I dream about you  
I got my arms around you  
Dream about you  
Ain't nothing else I can do  
I want to be where you are  
No matter near or how far  
So now I dream about you

I want to dream about you all my life  
No matter near or far  
I promise, promise I'll be where you are  
I'm going to dream about you
