

# Magnum, Everybody Needs

[Demo Version]

If you've never made a fool of me  
If you've never had  
But you did know and I could see  
Now it's making you sad  
Well, it's making you sad

Everybody needs someone  
Everybody needs someone  
Everybody needs someone to love

When you're letting every day go by  
Like water through your hands  
No, you'll never get it back again  
Do you understand?  
Do you understand?

Everybody needs someone  
Everybody needs someone  
Everybody needs someone to love

'Cause there's never been nobody alive  
Who can practice everything they've learned  
But there's a lot of people who survive  
When they've given everything they've earned

Everybody needs someone  
Everybody needs someone  
Everybody needs someone to love

[B-Side Version]

Did you ever have someone  
Take to your heart  
Always that feeling  
When you're taken far apart from someone

Everybody needs someone  
Everybody needs someone  
Everybody needs someone to love

Have you ever had problems  
That were hard to resolve?  
Never a solution  
You can manage on your own

Everybody needs someone  
Everybody needs someone  
Everybody needs someone to love
