

# Magnum, I'd Breathe For You

I'll take you where you've never been  
To fill your head with idle dreams  
And every step you take would last  
Into the future from the past

I'd breathe for you - if you want me to  
I'd breathe for you - I'll make it shine  
I'd breathe for you - if you want me to  
I'd breathe for you - till the end of time

I'd give you everything you'd need  
Then farewell to all, god speed  
I'll meet you on the other side  
And I'll make sure to be your guide

I'd breathe for you - if you want me to  
I'd breathe for you - I'll make it shine  
I'd breathe for you - if you want me to  
I'd breathe for you - till the end of time

You can't get far in this life  
But I'll pull you through  
I know that it's dark for a while  
You need something new

I'd breathe for you - if you want me to  
I'd breathe for you - I'll make it shine  
I'd breathe for you - if you want me to  
I'd breathe for you - till the end of time
