

Magnum, Just Like January

In these four walls
I tried but I can't get away
But I still dream every night
It gets me through to the day
I soon recover
'Cause when I'm alone nothing's wrong
It's just the season's that change
We all sing winter's song

Wolf cries by the river
Dark skies passing over soon deliver
Cold rain on the rooftops
Here forever just like January

Close to the fire
On this dark afternoon
The wind blows harder and higher
And summer can't come too soon
No time for lovers
They say there's a storm on the way
And there's nothing can change
This english winter's day

Wolf cries by the river
Dark skies passing over soon deliver
Cold rain on the rooftops
Here forever just like January

No place to hide
Those icy fingers through you
Can't be denied
And it's still getting to you

Wolf cries by the river
Dark skies passing over soon deliver
Cold rain on the rooftops
Here forever just like January
