## Magnum, The Great Disaster

I'll tell you something about the things that you should know And you'll learn as you grow and in turn Be one step further along the road to realise There's no rules, bad advice, many fools

First class performance to fill the lines of empty heads There's still hope for the dream but you don't Embrace disorder, it will chill you from inside And destroy everything that you try

Innocent faces look up in the classroom Soon their time will come

So beware of the skilful disguises It's too easy to dress up in white For this world can be full of surprises From the gutter a kingdom looks nice You're learning, there's no returning

This final blunder, for which they all expect our thanks They will hide from the kill to survive The great disaster, they'll take great care and will avoid Being there 'cause it's more than they dare

Innocent faces look up in the classroom Soon their time will come

Don't be fooled by the shining appearance It gets tarnished in time, don't we all They'll be wearing their wealth on their fingers And instructing us all how to fall You're learning, there's no returning
