

# Magnum, The Long Ride

Burns brighter than the stars at night  
Just as faithful as the falling light  
It's wilder than the roaring sea  
That's what it means, that's what it means to me  
And I don't know what I'd do if you took your love away  
I'd be dying by the day if you took your love away

Stronger than the coldest wind  
Like the night sky never seems to end  
A remembered long lost memory  
That's what it means, that's what it means to me  
And I don't know what I'd do if you took your love away  
I'd be dying by the day if you go away

There's a fire in your heart, gets into my soul  
And I know how it feels to be losing control  
There's a fire in your touch and it never grows cold  
Though we stand at the edge, still we never lose hold

Next to heaven's holy prize  
Warmer than the morning sunrise  
Everywhere and everything you see  
That's what it means, that's what it means to me  
And I don't know what I'd do if you took your love away  
I'd be dying by the day if you took your away

Far horizon where the eagles cry  
Across the desert, over mountains high  
I know that's how it has to be  
That's what it means, that's what it means to me  
And I don't know what I'd do if you took your love away  
I'd be dying by the day if you go away

There's a fire in your heart, gets into my soul  
And I know how it feels to be losing control  
There's a fire in your touch and it never grows cold  
Though we stand at the edge, still we never lose hold
