

# Maja Hyży (MAYA), Everytime

When you will be far away  
I hope you think about me  
I maybe you want be lies  
That you never want to try  
Every time I look into your eyes  
I see the road that leads to nowhere  
Every time I think about you life  
I just don't know if you're?  
?

And I said to myself:  
I have to find right place  
The way to happy day  
Because I just on my own

Every time I look into your eyes  
I see the road that leads to nowhere, nowhere  
Every time I think about you life  
I just don't know if you're?  
?

Ever time I think, I think of you  
Ever time I miss you, I miss  
Ever time I smile, I smile because of you  
Ever time I close my eyes see only you  
Only you  
I see only you, only you

Every time I look into your eyes  
I see the road that leads to nowhere  
Every time I think about you life  
I just don't know if you're?
