

# Major Lazer, Night Riders (ft. Travis Scott, 2 Chainz)

Tonight we're gonna set the streets on fire  
Straight up!

Outlaw, outlaw, like I hit the PowerBall  
Once all eyes is on me, floating off like St.Paul  
Niggas love to count yours, hoping that your people fall  
Wishin' death upon me, but I'm here forevermore  
I just get debated on, I just get my greatest on  
Saint Laurent on speed dial, I just put the latest on  
Bring it on, bring it on, you want more, then bring it on  
Set this bitch on fire, nigga, we can have a sing-a-long

You need to know that I'm a rider  
Tonight we're gonna set the streets on fire  
All I need is the gas and a lighter  
And we'll have one hell of a time  
You need to know that I'm a rider  
Tonight we're gonna set the streets on fire  
All I need is the gas and a lighter  
And we'll have one hell of a time  
Straight up!

I got a California king in my condo  
Got a motherfucking big screen by the front door  
Got a guest bedroom filled up with fur coats  
Nigga ain't no room in this bitch to even jump rope  
The fire and desire and I'm higher than my prior  
My attire I acquire might require a [...]  
Whoa might accept and deny, no denial  
I'll be in the court room on the table screaming: "Ride on!"

You need to know that I'm a rider  
Tonight we're gonna set the streets on fire  
All I need is the gas and a lighter  
And we'll have one hell of a time  
You need to know that I'm a rider  
Tonight we're gonna set the streets on fire  
All I need is the gas and a lighter  
And we'll have one hell of a time  
Hold up

[Mad Cobra.....]

You need to know that I'm a rider  
Tonight we're gonna set the streets on fire  
All I need is the gas and a lighter  
And we'll have one hell of a time  
You need to know that I'm a rider  
Tonight we're gonna set the streets on fire  
All I need is the gas and a lighter  
And we'll have one hell of a time  
Straight up!

All we do is relax, sit back and smoke  
We ain't got no job,  
We're going from broke  
That ain't stoppin' from gettin', gettin' inside of ya  
Takin' off in our cars, feel like we in the air screaming:  
"Straight metal, straight metal!"  
You need to know that I'm a rider

You need to know that I'm a rider  
Tonight we're gonna set the streets on fire  
All I need is the gas and a lighter

And we'll have one hell of a time  
You need to know that I'm a rider  
Tonight we're gonna set the streets on fire  
All I need is the gas and a lighter  
And we'll have one hell of a time  
Straight up!
