

# Make It Pop, Tommorrow Is Ours

Mmmmmm

Tomorrow is ours

Today  
Maybe nothing went your way  
But, hey  
Everything will be okay  
Gotta let it go  
All the hurt you feel  
Remember all you got to give  
Gonna dry your eyes  
Gonna start to heal  
Now is when you start to live  
So

Say goodbye to yesterday  
Our future's out there  
In the stars  
Look at us, we're on our way  
We're blazing trails

Tomorrow is ours  
[Jodi (In the back):]  
I feel it happening  
It's really happening  
Keep on moving on  
We keep on moving on  
I feel it happening  
It's really happening

You  
You can make your dreams come true  
Yes, you  
Here's what you're gonna do  
You're gonna let it go  
All the hurt you feel  
Remember all you've got to give  
Gonna dry your eyes  
Gonna start to heal  
Now is when you start to live  
So

Say goodbye to yesterday  
Our future's out there  
In the stars  
Look at us, we're on our way  
We're blazing trails

Tomorrow is ours  
Tomorrow is ours

Tomorrow is ours  
(In the back)  
I feel it happening  
It's really happening  
Keep on moving on

We keep on moving on  
I feel it happening  
It's really happening

Tomorrow is ours  
Keep on moving on  
We keep on moving on  
I feel it happening  
It's really happening  
Keep on moving on  
We keep on moving on  
I feel it happening  
It's really happening

Ooh, yeah

Tomorrow is ours
