

MALINSKY, Tonight

You're asking me why I am lonely
But not looking inside my eyes
I am moving slowly
I want you to hold here in my arm,my arms
I am falling in love again with you

Night - Tonight
I want you to be here

Our souls are connected
Our hearts are protected
Live got a taste together
Want you to be here forever

Cause when I see all stars
Deep inside your eyes
I see the light of love

You're asking me about us
What I am feeling about you now
You're my sunshine
When you look so deeply in my eyes,eyes
I am falling in love again with you
Night - Tonight
I want you to be here

Our souls are connected
Our hearts are protected
Live got a taste together
Want you to be here forever

Please just stay
It's our new life day
Please just stay
Together we'll find our way

Our souls are connected
Our hearts are protected
Live got a taste together
Want you to be here forever
