

# Manafest, Free

Free to live free to love, free to get up  
Free to get out and get up and move on, Im  
Free to live free to love free to get up  
Free to get out and get up and move on  
From all the pain, all the times, I ever cried  
For those who spoke lies Im gonna make it  
From all the days, all the rage I felt inside  
I know Im still alive not forsaken

## Verse I

I used to want it so bad, I was so mad  
Why cant I have a life like he has, autographs  
Record tracks tour the globe and rap  
It was a dream that seemed out of my grasp or wouldnt last  
Months passed, spent cash, all that I had  
Had to borrow just to stay at my pad, and no gas  
When dreams turn bitter and I know Im not a quitter  
I repaint the picture and start with something clearer  
I know what its like yo, to work so hard, watch it fall apart  
After leaving your job  
Gods got your back its free at no charge  
Speak Im free and believe with your heart

## Chorus:

Free to live free to love, free to get up  
Free to get out and get up and move on, Im  
Free to live free to love free to get up  
Free to get out and get up and move on  
From all the pain, all the times, I ever cried  
For those who spoke lies Im gonna make it  
From all the days, all the rage I felt inside  
I know Im still alive not forsaken

## Verse II

My road was long I choked and coughed  
I froze and lost, I brushed it off  
I wrote to God, Hear me  
I got a problem here, cant you see Im sinking  
Im shrinking, Im tripping, slipping, searching for some wisdom  
Since time is ticking Ive been thinking Im a sleeping victim  
Incline my ear listen I was blind Im here to switch it  
This is when I call to you Im crawling balling out  
Falling up to walk with you Im here to put it down  
Anything I dont know, download to my soul  
Let me be free so I can free those in pot wholes  
Let me sleep breezy like the beaches in Tahoe  
Helped me see clearly you perform the impossible

## Chorus Repeats

## Verse III

Ive been on and off, searching for a better job  
Hip hop gave me an out let to set it off  
My God saves Im free to just sing a song  
I walk straight to goals as if my team won  
Like the pentagon free to drop a bigger bomb  
Figured my sisters and brothers they need a leader son  
Teeter tottered not wanting to bother  
Children need a father not just payment with dollars  
Home of the brave were known to rescue and save  
In a moment we change, we cant settle for slave  
Hold to the dream go big or go home  
Freedoms in the heart mind, body & soul
