

Maneskin, The Driver

Hot like summer
Give me your eyes that twist the knife
Put me under your spell
Then hide the crime

Bare your soul till it's naked
Bite my lips till you break it
Steal my heart, get it wasted
Don't do it slow

'Cause if you wanna set the fire to the night
Baby, let me be your lighter
If you're already high and you wanna fly
I'll be the hand that takes you higher
And If you wanna love when you touch the sky
You can be my midnight rider
If there's nowhere to go and you wanna go wild
I wanna be the driver

Make me helpless
Tie me down and use your love
Made of velvet
Then turn the lights down low

Bay your soul till it's naked
Bite my lips till you break it
Steal my heart, get it wasted down
Till it's love

'Cause if you gonna set the fire to the night
Baby, let me be the lighter
If you're already high and you wanna fly
I'll be the hand that takes you higher
And If you wanna love when you touch the sky
You can be my midnight rider
If there's nowhere to go and you wanna go wild
I wanna be the driver

If you gonna set the fire to the night
Baby, let me be the lighter
If you're already high and you wanna fly
I'll be the hand that takes you higher
If you wanna love when you touch the sky
You can be my midnight rider
If there's nowhere to go and you wanna go wild
I wanna be the driver
